

# 2025 Trust and Security Report

## Our Commitment to Your Privacy, Data, and Spiritual Journey

At Bible Mentor AI, we don’t just see data —

We see memories, prayers, and lives growing closer to Jesus.

We believe spiritual trust is sacred.

That’s why we treat every reflection and memory shared with us as a holy responsibility.

Our commitment is simple:

- To secure your data with industry-leading technology
- To honor your ownership of your personal faith journey
- To uphold radical transparency and accountability

## How We Protect You

Category	What We Do	Status
Data Storage & Architecture	Firebase Firestore (GDPR/SOC2/ISO 27001), secure hosting, versioned devotionals via GitHub	B+ (Active)
Access Control & Authentication	Secure login via Firebase Auth, 2FA for admin accounts, strict Firestore user isolation	B (Active)
Encryption	TLS 1.2+ encryption in transit, 256-bit AES encryption at rest	A (Complete)
Data Ownership & Rights	Full user ownership, easy deletion request, export tools in progress	B (In Progress)
Backups & Recovery	Daily automatic encrypted backups, emergency restore plans	B (Ready)
Audit Logging & Monitoring	Activity tracking in Firebase, Google Cloud console logging, breach response plan	B (Active)
Third-Party Services	Stripe (PCI-DSS financial security), Formspree (waitlist privacy)	A- (Complete)

Where We Stand vs. Industry Leaders

Platform	Trust Score	Grade
Stripe	98/100	A+
Proton	95/100	A
GitHub	92/100	A
Bible Mentor AI	72/100	B-

Our Roadmap to an “A” Grade Platform

Task	Area Improved	Impact
Launch user “My Data” dashboard	Privacy, Trust	Transparency for users
Publish public security & privacy page	Transparency	Open accountability
Implement stronger rate limits	Dev Security	Defense against bots
Build user export functionality	Privacy & Control	Faith journey downloads
Weekly security audit checklist	Dev Security	Catch issues early
Optional cyber insurance coverage	Incident Protection	Financial resilience if needed

Estimated Completion Timeline: 90 days

What Makes Bible Mentor AI Different

- Spiritual Stewardship**  
Every memory you save here is treated as sacred — never as a marketing opportunity.
- User Ownership First**  
You control your reflections. Not us. Not advertisers. Not algorithms.
- Minimal and Respectful Data Collection**  
Only what is necessary to guide and encourage your faith journey is ever stored.
- Preparedness, Not Assumption**  
We don’t assume security — we work daily to preserve it.

# Spiritual Responsibility Statement

“Bible Mentor AI recognizes that each reflection, each prayer, and each memory entrusted to our platform is an echo of a person’s walk with God. We approach every byte of stored memory with humility, gratitude, and sacred responsibility.”

## Summary Snapshot

Current Security Grade	B-
Greatest Strengths	Encryption, ethical architecture, spiritual stewardship
Areas of Growth	Transparency tools, export functions, enhanced endpoint security
Projected A-grade Timeline	90 Days (with roadmap tasks)
Launch Commitment	Full public policies, user-first data controls, and ethical stewardship

## Closing Note

Bible Mentor AI isn’t just built to be secure —  
It’s built to be **worthy** of the trust you place in it.  
Thank you for allowing us to walk alongside your faith journey.  
We will honor that trust with everything we build.
